

1. Our family listens to K-Love Christian music on 2 separate FM channels in the Memphis area. K-Love is the primary source of public Christian music in our area & many areas nationwide. We need this type of music to offset the bombardment of secular music options on other radio channels.
2. It is critical that Christian music continue to be broadcast in our area & across the nation. It is essential that K-Love & other services continue to have access to FM channels & not be displaced by any type of LPFM or other broadcaster options.
3. In todays environment, most radio & tv broadcasts are secular-oriented & do not provide uplifting or encouraging messages that the public needs to hear. K-Love and other ministries play a vital role in providing this type of information. Without the message of the gospel, without uplifting music, without daily prayer support, our area & this nation will become a bigger mess than it is today.
Please leave the FM broadcasters alone & look for other alternatives.
